

NOTICE TO ALL STUDENTS

Kindly be advised of the following new arrangements pertaining to the registration of senior students as agreed in a meeting with the SRC on 20 January 2025.

As previously communicated, registrations for senior students were scheduled to commence as follows:

1. From 21 January 2025: All new senior and returning students
2. 03 February 2025 until 07 February 2025: Finalisation of registration for all students, late registration (period of additions and cancellations).

The registration dates will now commence as follows:

1. From Monday, 27 January 2025: All new senior and returning students
2. 03 February 2025 until 07 February 2025: Finalisation of registration for all students (period of additions and cancellations). **These dates do not change.**

Furthermore, as per agreement, the commencement of classes will not be impacted by this change in the registration dates. Classes will commence as per approved calendar on 03 February 2025.

Kindly further note that as communicated in the 2024 academic year, registrations are done once at the beginning of the academic year. This means that if a student has only second semester modules outstanding, they must ensure that their registration for the 2025 academic year is processed and finalised during this registration period. The second semester registrations will be for modular additions and cancellations only, and not for new qualification registrations.

Issued by the Office of the Registrar.
