(5-year performance-based fixed-term
contract)**

POST N°:0401
PEROMNES GRADE:04

VUT AT A GLANCE:

The Vaal University of Technology (VUT) was first established as a college for advanced technical education in 1966 and then transitioned into a Technikon in 1979. With the restructuring of the higher education landscape, the institution became a University of Technology in 2004 and has seen significant growth in its activities and reach since that time.

The University now operates from its main campus in Vanderbijlpark and the Science Park at the Sebokeng Campus where there is ample vacant land for future expansion.

Within the higher education context, VUT's mandate is to:

- promote teaching and learning which, through the use of technologically advanced education, prepares graduates for either employment or entrepreneurship.
- promote innovation and the commercialisation of new knowledge by undertaking basic and applied research and the promotion of technology and technology transfer, and
- be an engaged institution through an engaged scholarship with industry and its local community.

With a total of nine (9) centres of excellence and 14 NRF-rated researchers, VUT prides itself on its association with renowned academics and NRF-rated researchers who not only produce world-class research that solves real-life problems but also empower aspiring researchers to engage the most experienced minds in several research fields as supervisors and aides.

On the international front, VUT has adopted a vision of comprehensive Internationalisation, specifically focusing on academic excellence, research, and innovation. The University continuously produces graduates whose qualifications are internationally recognised, and locally relevant. Community Engagement at VUT is guided by the principle of engaged scholarship and thus entails research that is informed and aims to solve community problems.

To achieve its concerted mission *"The Vaal University of Technology's mission is to develop techno-entrepreneurial graduates and innovators who will drive a vibrant transformation of a flourishing and sustainable society, industry and commerce."*, VUT has recently approved its Strategy 2033+ to refocus and comply with its mandate as a University of Technology.

BACKGROUND:

The Vice Chancellor & Principal, Prof Khehla Ndlovu is seeking like-minded professionals keen to contribute to the strategic direction and turnaround of the Vaal University of Technology. Therefore, a professional is sought to lead in the role of Executive Director Marketing and Communication.

The potential incumbent will provide strategic leadership to the University, promoting a culture of excellence in all activities and areas related to Marketing and Communication

As members of the executive of the University, all members actively support the Vice-Chancellor (VC) and Principal in the strategic leadership and management of the University and in supervising academic and administrative

functions through line reports. Although each Executive is appointed in the first instance to oversee particular functions, these may change over the course of time at the VC's discretion.

JOB DESCRIPTION

Key performance areas include, but are not limited to:

As the Executive Director: Technology, Transfer and Innovation, you will play a pivotal role in shaping and executing our technology transfer strategies, fostering innovation, and ensuring the successful commercialisation of cutting-edge technologies. The key performance areas (KPA's) will include the following, but not limited to:

- **Strategic leadership:** Lead the development and execution of the TTI's strategic plan, ensuring alignment with national and institutional priorities.
- **Innovation Management:** Drive innovation and create a culture that supports new ideas and solutions.
- **Stakeholder Management and Liaison:** Establish and maintain strong relationships with industry partners, investors, academic partners and internal departments to maximise technology impact.
- **Resources & People Management:** Build, lead, and mentor a high-performing team in technology transfer, licensing, and innovation
- **Budgeting, Management, and Resource Allocation:** ensuring alignment with the institutional goals, efficient resource allocation and financial accountability.
- **Policy & Governance:** Monitor and evaluate the effectiveness of technology transfer strategies and policies, adjusting as needed.
