MESSAGE TO THE CLASS OF 2026

Esteemed Graduates, Distinguished Guests, Faculty Members, Families, and Friends

Today we gather not only to celebrate an academic milestone, but to honour a journey of perseverance, discipline and hope. Graduation is never merely the conclusion of study. It is the beginning of responsibility. It is the moment when knowledge meets the world and must prove its worth.

To the Class of 2026, you arrive at this stage at a defining moment in the history of the Vaal University of Technology (VUT). In June 2026 the University celebrated its Diamond Jubilee, marking sixty years of academic excellence, innovation and service to society. Your cohort therefore holds a special place in this historic journey. You are the Jubilee graduates, the generation that steps forward as the University marks six decades of shaping talent and transforming lives.

Across those six decades, thousands have walked these halls before you. Engineers who designed bridges and factories. Technologists who powered industries. Educators, entrepreneurs and innovators who shaped communities across South Africa and beyond. Today you

join that lineage. You become part of the living legacy of the University.

Your achievement is not yours alone. Behind every graduate stands a constellation of support. Parents who sacrificed. Families who encouraged. Lecturers who guided and challenged. Friends who walked the journey with you. Today we honour them as well, because their belief helped carry you to this moment.

Yet graduation does not take place in isolation from the realities of the world around us. South Africa continues to face profound challenges. Unemployment remains high. Poverty still shadows many communities. Inequality continues to test the promise of our democracy. These are not abstract statistics. They are lived realities that call for courage, innovation and leadership.

But history teaches us that societies are changed not only by policies and institutions. They are changed by people who refuse to accept that things must remain as they are.

At VUT, you were prepared for precisely such a moment. You were trained not simply to memorise knowledge but to apply it. To question. To design. To build. To solve problems that matter. Whether you enter laboratories, boardrooms, classrooms, factories or start your own enterprises, the education you received here equips you to turn ideas into impact.

The world you enter is one of profound transformation. Technology is reshaping industries. Artificial intelligence is redefining the nature of work. Sustainability and responsible innovation are becoming central to the future of our planet. In such a world, your qualifications are not merely credentials. They are instruments of change.

As the University continues to commemorate its Diamond Jubilee, we reflect not only on the sixty years that have shaped us, but also on the future we are building., we reflect not only on where we have come from, but on where we must go. A Jubilee is not simply a celebration of years passed. It is a moment of renewal, a re-affirmation of purpose. For VUT, that purpose remains clear: to produce graduates who are builders of society, creators of opportunity, and custodians of ethical leadership.

You, the Class of 2026, embody that mission. You are the engineers who will design smarter cities and

resilient infrastructure.

You are the technologists who will build the industries of the future.

You are the innovators who will create businesses that generate employment.

You are the thinkers who will challenge complacency and inspire progress.

In years to come, when the history of this Diamond Jubilee is told, your generation will be remembered as the graduates who stepped forward at a decisive moment. The generation that carried sixty years of legacy and transformed it into possibility.

So walk into the world with confidence. Let curiosity guide you. Let integrity define you. Let service to society remain your compass.

May you build boldly.

May you lead with courage.

And may the knowledge you carry from this University illuminate the path ahead.

Congratulations, Class of 2026.

The future now calls your name.

Go Sehlopha sa 2026, o fihla mo nakong ye ka motsotso wo o hlaloša-go histori ya Yunibesithi ya Theknolotši ya Vaal (VUT). Ka Ngwatobošego 2026 Yunibesithi e keteka Jubilee ya yona ya Taemane, e swaya mengwaga ye masometshela ya bokgoni bja tša thuto, boithlamelo le tirelo go setšhaba. Lena, Sehlopha sa 2026, le akaretša thomo yeo.

Ke lena baentšeneere bao ba tlogo hlama ditoropo tše bohlale le mananeokgoparara ao a tiilego. Ke lena ditsebi tša theknolotši tše di tla agago diintasteri tša ka moso. Ke lena bahlami ba dilo tše mpsha bao ba tla hlola dikgwebo tše di tšweletšago mešomo. Ke lena batho ba go nagana bao ba tla hlohlogo go ikgotsofatša le go hlohleletša tšwelopele.

- is the opening line of Shakespeare's play Twelfth Night.

Music serves a unifying bond that is used as a tool to bring people diverse in nature to curve fort that will withstand all insurmountable challenges.

As VUT celebrates its 60th anniversary the need for aforementioned exercise can never be emphasised enough. There can be no better time and opportunity to realize and embrace this functionality better than the year the university celebrates its diamond year, the University Anthem.

This university anthem will foster unity, pride, and a shared sense of identity among students, staff, and alumni. It will act as a symbolic representation of the institution's history, values, and academic mission, often reinforcing loyalty and commitment during formal ceremonies like graduations and all other formal occasions.

Key purposes of a VUT Anthem include:

- **Symbolizing Identity & Pride:** The anthem highlights the institution's history, unique character, and achievements, fostering pride.
- **Ceremonial Function:** It will be used at graduations, convocations engagements and other official events to provide a formal, and poised atmosphere.
- **Branding & Marketing:** It will be used as a branding tool, promoting the institution's image to the external stakeholders and the world vastly.
